I first met Bunny when I transferred to Judson school. We remained friend's until her death. Always a wonderful smile and "well hello Bev". Worked with her for a long time at LCM and Our Lady. Always laughing, playing jokes,(remember when you wore my nursing cap and visitors kept asking you medical questions, thinking you were the nurse?) I got a very big kick out of this when you "threw " my cap down on the counter and yelled" no thanks!". Will miss you good friend!
