“ Jeff had such a loving heart. He would always be there no matter what time of day. He was always ready to give us any information he had on the patient, assisting in any way we needed. I never saw anything but a smile on his face. If we had a call at 3am....greeted with his smile and good information, was such a blessing to us and the patient in need.

I have deep respect for Jeff and by now he has probably met up with our many members of our EMS family.
